(insert comments here, if any)

For Reviewers: Initial criteria for approving or rejecting an article	YES/NO/ PARTIALLY
The topic is relevant and constitutes a significant contribution to the field of educational research.	
It presents a well-structured, coherent, and easily understandable text for readers.	
It thoroughly reviews the study topic, including up-to-date, original, and essential references from regional and international sources.	
It has a consistent, solid methodology appropriate to the stated objectives.	
The results and conclusions are relevant and compelling.	

Note: If the option "NO" was mostly selected in the previous table, it is suggested to reject the article. In that case, it is recommended not to continue evaluating the rest of the form.

ASPECTS TO EVALUATE

If you believe that the article has potential for publication, please review the following aspects:

1. The titles and subtitles are clear, concise and accurately describe the topic to be developed.

YES/NO **(select one option)**
